

# Warranty Extension

An enhanced warranty program that makes it easy for you to purchase additional warranty cover.

Additional protection against the cost of repairs can be achieved through extending the standard 12 month warranty up to a maximum of five years, on a selected range of NHP and its supply line partner products.

Warranty extension is also available for products remanufactured through the Rockwell Automation repair center.

\* Extended warranty is an extension of the original product warranty and subject to NHP terms and conditions which are available upon request. Extended warranty excludes repairs due to fair wear and tear from use and when published maintenance procedures have not been adhered too. Product may be substituted with a like for like product at the sole discretion of NHP. Extended warranty not applicable to software products and services.

\*\* All extended warranty claims require the product to be returned to NHP, with the extended warranty registration number clearly referenced. Extended warranty claims can only be validated by the NHP or Rockwell Automation repair centres.
